The Smith family are Jenny, Cathy, and their mum and dad. They went camping last month. Mrs Smith and her daughters packed the suitcases. Mr Smith looked at the map.

- 1 The Smith family went camping last month.
- 2 The girls packed the _____.
- 3 Their father looked at the _____.

They were late and they didn't arrive at the campsite until nine o'clock. It was dark. 'Can you get the torch out of the suitcase, Jenny?' said Mr Smith. But when Jenny looked for it, it wasn't there. 'Oh no!' said Jenny. 'I think I left it in the kitchen, on the table!'

- 4 They didn't reach the _____ until nine o'clock.
- 5 They couldn't see anything because it was _____.
- 6 Jenny realized the torch was still in the _____.

Just then, Cathy said 'Where are the other tents?' They all looked around. They weren't in a campsite – they were in a field!

- 7 Cathy looked for some other _____.
- 8 They weren't in a campsite. They were in a _____!

Last year we went to Thailand on holiday. We went on 8th August. We stayed in a village near the beach. One day, we were walking along the shore, when we heard a noise. The sky was black and there were big waves on the sea. We thought it was an earthquake. We were running back to our house, when it started to rain. It wasn't an earthquake but it was a very bad storm! We all got very wet.

Who deserves a high salary?

Bright star Posted at 14:56 on 12/4

Should anyone earn more than £1 million a year? I read in the newspaper that a famous footballer was paid the same in one week as 150 factory workers. Factory workers work 40 hours a week. Footballers just kick a ball around. I think they are paid more than they deserve.

Sports fan Posted at 17:23 on 12/4

Football stars need a lot of training from a young age. They train five days a week and have strict diets. Also, athletes entertain people, so they are giving something to the public. I think they deserve their money.

London girl Posted at 18:06 on 12/4

I don't think that a footballer or any other celebrity should be paid so much money. They don't help anyone. Scientists and doctors train for years, too. They improve people's lives, but they are not paid as much as pop stars. That's silly!

Book worm Posted at 18:42 on 12/4

I agree with London girl. Surgeons, firefighters and the police deserve to be paid a lot more. They help people every day and they work in difficult and dangerous situations. They are heroes and they should be the real celebrities.

Sports fan Posted at 19:18 on 12/4

Tickets to football games and concerts are expensive. So are CDs and DVDs. Celebrities were paid a lot less years ago, but these days we pay more for entertainment, so they earn more. It's simple.

Bright star Posted at 19:56 on 12/4

Thanks for all your interesting replies. I think the emergency services, scientists and engineers deserve more money than celebrities. But if people are happy to pay lots of money for entertainment, then the celebrities will be rich.

3 Read again. Match the people and ideas.

- 1 Footballers just kick a ball. ☒ a
- 2 Football stars train from a young age. ☐
- 3 Doctors improve people's lives. ☐
- 4 The police should be celebrities. ☐
- 5 Celebrities were paid less in the past. ☐
- 6 Firefighters are heroes. ☐

- a Bright star
- b London girl
- c Sports fan
- d Book worm

Writing

- 1 Look at the text. Where do you think it is from?
- 2 Read.

3 Read again and answer the questions.

- 1 How did the fire start?
- 2 Who called the fire brigade?

Basketball star saves family

School basketball star Jake Parry, aged 12, is in hospital after a fire at his home in Park Road last night.

The fire started when an electric heater in the Parrys' living room caught fire. The family were all asleep in bed, but the smoke alarm woke Jake up. He called the emergency services and then woke up his parents and his sister, Jenny, aged eight.

The fire brigade rescued the family from the house and paramedics took Jake and his family to hospital. Jake's parents and sister have already gone home and Jake will be out of hospital later today.

Firefighter Bill Sanders said Jake was very brave. "He thought quickly and he saved his family." Jake told reporters he was looking forward to going back to school to play in an important basketball match on Friday.

A newspaper report

When we write a newspaper report, we include:

- **A headline (the title of the report)**
This tells us what the report is about.
Basketball star saves family
- **A short introduction**
This tells us the most important parts of the story, but not all the details.
School basketball star Jake Parry, aged 12, is in hospital after a fire at his home in Park Road last night.
- **A main body**
This tells us all the details.
- **A conclusion**
This tells us what happened in the end and what people said about the event.
Firefighter Bill Sanders said Jake was very brave. "He thought quickly and he saved his family."

4 Number the parts of the newspaper report in the correct order.

- ☐ Two children and their parents are safe after a flood trapped them in their home yesterday.
- ☐ Emma said that the firefighters were amazing. "They arrived so quickly," she said. Mr and Mrs Hicks told reporters they were very glad that the emergency services were so organized.
- ☐ 1 Family Trapped in Flood
- ☐ Emma Hicks, aged 11, and her brother Tim, aged nine, were at home with their parents when the river near their house flooded and filled their street with water. The water started to come into the house and flood the downstairs rooms. The family quickly moved upstairs and called the emergency services. Firefighters arrived in a boat and rescued the family. The family is now staying with relatives.

Languages of the World

Q How many languages are there in the world?

A There are around 7,000 languages spoken in the world. Some of these languages have almost disappeared and only have a few speakers left, but others are still spoken by millions of people! There are many languages which were widely spoken in the past and now no one speaks them anymore, for example, Latin or Ancient Greek.

Q More people speak Chinese than English, so why is English the international language?

A The reason is perhaps because English is spoken in so many different continents. People in the UK, the US, Australia, Canada, Ireland and New Zealand speak English as their first language. It's also recognized as an official language in more than 70 countries around the world!

Q What's the most widely spoken language in the world?

A Mandarin is the most widely spoken language in the world. It's the official language of China and about 900 million people living there speak it as their native language. Mandarin is also spoken in other Asian countries, such as Singapore, Malaysia, Indonesia and Thailand. So, altogether, Mandarin is spoken by almost 15% of the world's population!

Q Why do some languages disappear?

A International companies often have businesses in different countries. This is one reason why young people in these countries may learn the more dominant languages of the world and stop learning their own languages. Today, about 2,000 languages have less than 1,000 speakers. As time goes on, fewer and fewer people are speaking these languages and, soon, they may not exist anymore.

Q What are the next most widely spoken languages in the world?

A Hindi, English and Spanish are each spoken by over 300 million native speakers. Portuguese, Russian, Arabic, Japanese, German and French each have 100 to 300 million speakers. That's a lot of people!

Q How many languages will there be in the future?

A Some scientists predict that half of the languages spoken in the world today will disappear by the end of the century as young people stop learning the language of where they come from.

Namaste
Aloha
Bonjour

Hallo
Dobry den

Who invented the computer?

In 1833, a British inventor, Charles Babbage, made plans for a mathematical machine. It was the beginning of the first computer. Babbage spent 37 years trying to build his machine, but there were many complications and he died before he finished it. The first computer was finally created in 1946. It was called the Small-Scale Experimental Machine.

Why is a mouse called a mouse?

The first computer mouse was invented by Douglas Engelbart in around 1964. It was a little wooden box on wheels that could move an on-screen cursor. It was called a mouse because the wire that connected it to the computer looked like a tail. Luckily, a computer mouse is much smaller now and is usually made of plastic. However, it still looks like the first mouse that was made.

When did the World Wide Web begin?

The World Wide Web was invented by Tim Berners-Lee and Robert Cailliau in 1990. It was immediately successful and, in four years, 50 million people were using it! Today, billions of email messages are sent across the world every day. It is difficult to imagine life without it, as the World Wide Web has changed the world!

How big was the first computer?

The first computer was huge. It filled a large room and weighed over 30,000 kilos. That's the same as six adult male elephants! Luckily, as technology has grown, computers have got smaller. Today, you can even buy a computer that's the size of a small mobile phone.

How many computers are there in the world today?

In the early 1940s, the president of the computer company IBM said, "I think there is a world market for about five computers." However, today, there are more than a billion computers in the world! Computers became much more important in the world than anyone ever expected!
